# What is MyLearn

MyLearn is Media Design School's new online learning platform.

Content is everywhere, but MyLearn is where you will find your community and connect with other students, lecturers and teachers.

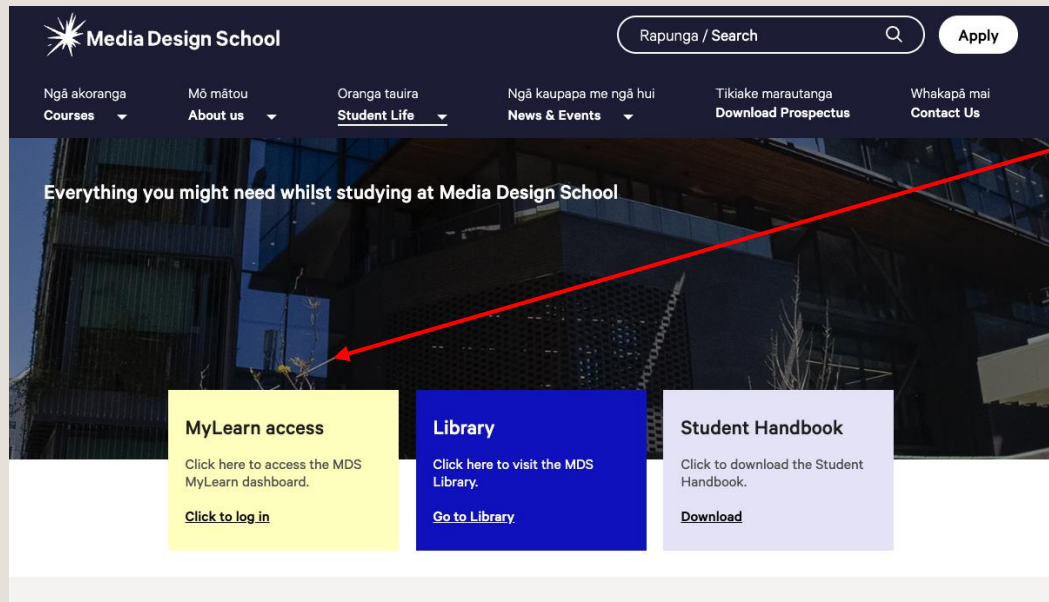

MyLearn will give you the best opportunity to learn online using Microsoft Teams, video and heaps of other tools that help you learn anywhere, anytime.

MyLearn is replacing Blackboard, our current online learning platform.

But don't worry – you will still have access to your old subject content and assessments in Blackboard.
